

BUSINESS FOR SALE

Project Rocksteady - Specialized Concrete Construction Services Contractor

A Western Canada-based specialty concrete construction and technical services contractor providing installation, repair, and diagnostic solutions for commercial, industrial, institutional, and infrastructure projects. With complementary capabilities including structural assessment, scanning, selective demolition, concrete repair and strengthening, the business helps clients simplify coordination, reduce risk, and keep technically demanding projects on schedule.

The business maintains longstanding relationships with general contractors, construction managers, infrastructure and institutional asset owners, property developers, and the public sector. Demand spans multiple stages of the asset lifecycle including new construction, maintenance, and retrofit. Ongoing compliance with customer qualification, safety, training, and documentation requirements supports participation in major projects while contributing to a high level of repeat business.

Following several years of sustained growth, management has invested significantly in operational infrastructure. Formalized systems, project controls, safety programs, and delegated management responsibilities have established a scalable operating platform positioned for continued growth.

COMPANY PROFILE
